

## **ONF Payment-In-Full Requirements for Membership Dues**

In order for any company to be recognized as an ONF Member, payment in full of all outstanding membership dues is required.

All ONF members are responsible for any taxes or levies that would otherwise reduce amounts received by ONF for membership dues. In particular, companies located in jurisdictions that may have withholding tax obligations for membership payments, including but not limited to India and Japan, must cover any withholding tax that may be imposed unless otherwise prohibited by applicable law.

Should ONF receive a NET amount for a membership payment that is less than the full amount due, ONF may, at its discretion, reduce the member's term and adjust the member's renewal date to an earlier date in a prorata fashion to offset the partial payment.

ONF will reasonably assist a member when requested by providing any necessary information in connection with a member's efforts to recoup withholding tax payments. Upon request, ONF will gross up membership invoices to assist companies that will be subjected to withholding tax on their membership payments. Please contact [accounting@opennetworking.org](mailto:accounting@opennetworking.org) if you require such assistance.
